594

D. 1633—*P. & T.* 25-36-5, *dated Bangalore, 6th September* 1938.

In exercise of the powers vested in them under Section 1 (3) of the Act for the Regulation of Wireless Telegraphy in Mysore (Act IV of 1937), the Government of His Highness the Maharaja are pleased to direct that the Act shall come into force from 1st October 1938.

No. D. 1643—*P. & T.* 25-36-6, *dated Bangalore, 6th September* 1938.

In exercise of the powers vested in them under Section 13 (i) of the Mysore Wireless Telegraphy Act IV of 1937, the Government of His Highness the Maharaja of Mysore are pleased to issue the following rules, and direct that they shall come into force from 1st October 1938.

By Order,

M. VENKATANARANAPPA,

Secretary to Government,

Development Department.

THE MYSORE WIRELESS TELEGRAPHY RULES.

1. (i) These rules may be called 'The Mysore Wireless Telegraphy' Rules.

(ii) They shall come into force with effect from 1st October 1938.

2. In these rules, unless there is anything repugnant in the subject or context,

(*a*) The 'Act' means the Act IV of 1937 for the Regulation of Wireless Telegraphy in Mysore.

(*b*) A 'Wireless receiving station' means a station which is capable of receiving speech but not capable of transmitting.

(*c*) 'Fixed non-commercial station' means a station established on land for purposes of transmission and reception of speech for research, experiment or instruction.

(*d*) 'Complete Wireless Set' means any apparatus which is capable in itself of transmitting or receiving wireless signals with or without the addition of aerials, valves, power supply, telephones, loud speakers or equivalent devices.

(*e*) 'Dealer' means any person who deals in or manufactures for gain wireless telegraphy apparatus as defined in the Mysore Wireless Telegraphy Act of 1937.

(*f*) 'Licensing authority' means the authority constituted under section 5 (1) of the Act.

(*g*) A 'Commercial Broadcast Receiver' means and includes wireless receivers and apparatus used for purpose of reproducing broadcast programmes in business premises to which the public have access.

3. (i) No license is required under these rules to establish, maintain and work a wireless receiving station or fixed non-commercial station or to possess a wireless telegraph apparatus when owned or worked by His Highness the Maharaja of Mysore or the Government of Mysore.

(ii) Subject to the provisions contained in these rules, every person other than a dealer is exempted from the requirement of holding a license to possess wireless telegraphy apparatus in respect of—

(*a*) such apparatus as is reasonably required for the purpose specified in a current license issued to him under rule 5 (*a*) or (*b*) ;

(*b*) wireless telegraphy apparatus other than complete wireless sets.

4. Application for a license—

(*a*) to establish, maintain and work a wireless receiving station shall be made in Form No. I and in accordance with the instructions contained therein ;

(*b*) to establish, maintain and work a fixed non-commercial station, shall be made in Form No. II and in accordance with the instructions contained therein ;

(*c*) to possess wireless telegraphy apparatus shall be made in Form No. III and in accordance with the instructions contained therein ;

(*d*) application for a license for working Commercial Broadcast Receivers in the rooms of business premises to which the public have access shall be made in Form IIIA and in accordance with the conditions contained therein;

(*e*) application for a license to demonstrate wireless receiving apparatus shall be made in Form III B and in accordance with the conditions contained therein

5. Licenses shall be issued--

(*a*) to establish, maintain and work a wireless receiving station in Form No. IV and subject to the conditions contained therein;

(*b*) to establish, maintain and work a fixed non-commercial station in Form No. V and subject to the conditions contained therein;

(*c*) to persons other than dealers in Form No. VI, and to dealers in Form No. VII, for possession of wireless telegraphy apparatus;

(*d*) for working Commercial Broadcast Receivers in Form No. VIII;

(*e*) for demonstration of wireless receiving apparatus in Form No. IX.

6. A fee of Rs. 10 shall be payable for every license except for Commercial Broadcast Receivers and demonstrations of wireless receiving apparatus issued under these rules and for subsequent renewals.

In the case of licenses for Commercial Broadcast Receivers and demonstration of wireless receiving apparatus, the fee will be Rs. 25 and Rs. 5 respectively. The fee for the renewal of the former will be Rs. 25 when the license is renewed on or before the date of expiry, and Rs. 25 if renewed after the date of expiry.

Exception :—No fee will be levied in respect of apparatus used for research, experimental and educational purposes, by educational and other institutions recognised by Government.

7. Licenses shall be valid for a period of 12 calendar months beginning from the first day of the month of issue.

8. Licenses issued under these rules are not transferable.

9. No refund shall be granted of any fees paid under these rules.

10. The licensing authority may cancel any license issued under these rules to any person who has been

convicted of a breach of these rules or of an offence punishable under sections 7, 8 or 9 of the Act.

11. Where the licensing authority is satisfied that a license granted under these rules has been lost or accidentally destroyed, he may grant a duplicate or substitute license on payment of a fee of rupees two.

12. (*a*) Every person licensed under these rules for establishing, maintaining and working a wireless receiving set shall use the same only for reception and for purposes other than public or private correspondence, *i.e.*, experiment, instruction and use by amateurs.

(*b*) It shall not be used for business purposes except by dealers who are in possession of a license issued under these rules to possess wireless telegraphy apparatus.

13. (*a*) Every person licensed under these rules shall keep the wireless telegraphy apparatus possessed by him at the premises specified in that behalf in the license.

(*b*) A license issued under these rules for possession of wireless telegraphy apparatus shall ordinarily authorise the licensee to keep wireless telegraphy apparatus in one building only, provided that the licensing authority may at his discretion permit the licensee to keep the apparatus in two or more buildings.

(*c*) The licensing authority may, during the currency of a license, alter the specification of the premises specified therein on receipt of a written application from the licensee together with the license for amendment.

14. Every dealer shall maintain a register of wireless telegraphy apparatus and shall cause to be entered therein—

(*a*) the details of all such apparatus in his possession together with the dates on which the apparatus came into his possession and the sources from which he obtained it;

(*b*) the name and address of every person to whom he sells or otherwise transfers wireless telegraphy apparatus together with the date and particulars of such apparatus;

(*c*) In the case of complete wireless sets, the details, save where proviso to rule 15 is applicable, of the license specified in that rule.

15. Every dealer shall require every person purchasing or acquiring a complete wireless set to produce a

valid license issued in such person's name either under these rules to establish, maintain and work a wireless receiving station, or a fixed non-commercial station, or, to possess wireless telegraphy apparatus.

Provided that this rule shall not apply—

(a) when the person purchasing or acquiring a complete wireless set is not resident in Mysore State and is purchasing or acquiring the set for use outside Mysore State;

(b) up to and including 1st October 1938 when the person purchasing or acquiring a complete wireless set is a dealer who declares that he has applied to the licensing authority for a license to possess wireless telegraphy apparatus and has not received the license.

16. (*a*) The licensing authority, may, by order in writing appoint Inspectors and Inspecting Officers under these rules.

(*b*) Such Inspector or Inspecting Officer may inspect any wireless telegraphy apparatus in possession of any person who is licensed or exempted under these rules.

(*c*) On demand from such Inspector or Inspecting Officer every person licensed under these rules shall produce his license for inspection and such person shall to the best of his knowledge, and if so required by an Inspector or Inspecting Officer, give particulars regarding the name and address of any person to whom he may have transferred any wireless telegraphy apparatus.

(*d*) On demand from such Inspector or Inspecting Officer every dealer shall produce the register required under rule 14 of these rules and shall permit the Inspector or Inspecting Officer to make extracts therefrom.

17. The Director of Industries and Commerce in Mysore, Bangalore, shall be the authority to issue licenses under these rules.

18. Any breach of the rules other than a breach which is an offence punishable under sections 7, 8 or 9 of the Act shall be punishable with fine, which may extend to one hundred rupees.

19. No prosecution will be instituted under the Act or the rules framed thereunder, until the expiration of 15 days next after the issue of a notice to the party concerned.

FORM I.

Application for a License to Establish a Wireless Receiving Station.

(*Broadcast Receiver.*)

NOTE.—The application should be forwarded to the Director of Industries and Commerce in Mysore, Bangalore, and must be accompanied by a receipt from one of the Mysore Government treasuries for Rs. 10 and in the case of applications for renewal, by the expired or expiring license also.

Act for Regulation of Wireless Telegraphy in Mysore.

(Act IV of 1937.)

Application for a license to establish, work and maintain a Wireless Telegraph Station in Mysore State.

(NON-COMMERCIAL FIXED STATION).

1. Name of applicant (In block capitals). Address ... Age ... Occupation ... Nationality (Evidence of nationality and two written references as to character should be enclosed).	
2. Scientific qualifications (if any) of applicant. Particulars of any experience in working Wireless Telegraph Transmitting Apparatus. Speed at which applicant can send and receive in the Morse Code.	
3. Purpose for which a license is required.	
4. Particulars of apparatus to be used. The trade name of the set in the case of a standard set bearing a recognised Trade name (Diagrams to be furnished and attached to this form unless a standard set bearing a recognised trade name is to be employed). (a) Transmitting ... (b) Receiving ... ... (c) Antenna (including sketch and dimensions and means of support).	
5. Power to be used for transmission (A) (a) Source ... ... (b) Point where measured ... (c) Volts .... Amperes. (d) D/C or A/C ... (e) Cycle per second (A/C) ... (f) Maximum watts to be taken by transmitting instruments.	

6. Particulars of stations—

Name

Exact location (a) Type (b) Class (b) Remarks

NOTE:—(If a station is moveable, state place in which it will normally be located and area over which it is desired to move.)

7.	Wavelengths it is desired to use	{Transmitting / Receiving
8.	Range of waves over which apparatus is capable of being adjusted.	{Transmittiug / Receiving
9.	Station with which it is desired to communicate.	
10.	What message from Government stations it it desired to read and make use of.	
11.	Hours of working desired ...	{Transmitting / Receiving
12.	Names, addresses and qualifications of operators with particulars of their certificates of competency.	

DECLARATION.

I undertake to observe the conditions of the license and hereby certify that the apparatus herein described can and will be worked in accordance with the provisions of the license. I further declare that the apparatus is licensed for the transmission of messages, only operators holding approved certificates of competency shall be employed to work the transmitting apparatus.

Conditions of Broadcast Receiver License.

1. The Licensee shall not permit the station to be used for any purpose other than that of receiving messages.

2. The station shall not be used in such a manner as to cause interference with the working of other stations. In particular, reaction must not be used to such an extent as to energize any neighbouring aerial.

3. An aerial wherever possible will be located at a fairly reasonable distance from the Power Lights, Telegraph or Telephone Lines. Wherever it crosses over or is liable to fall or to be blown up on any telegraph or telephone line or overhead power wire (including electric lighting and power and tramway wires) it must be guarded to the reasonable satisfaction of the owner of the power line or lines concerned so as to prevent any damage being done in the event of a break occurring.

4. The licensee shall not divulge or allow to be divulged to any person (other than the duly authorised officer of the Government of His Highness the Maharaja of Mysore or a competent legal tribunal) or make any use whatsoever or any message received by means of the licensed station other than time signals, musical or other programmes and messages transmitted for general reception.

5. The station shall be open to inspection at all reasonable times by any officer duly authorised by the Government of His Highness the Maharaja of Mysore in this behalf. At the request of such authorised officer this license shall be produced for inspection.

6. This license may be cancelled by the officer authorised in this behalf by the Government of His Highness the Maharaja of Mysore at any time either by specific notice in writing sent by registered post to the licensee at the address shown hereon, or by means of a notice, published in the *Mysore Gazette*, addressed to all holders of wireless receiving licenses, and will be cancelled on the breach of any of the foregoing conditions. In the event of cancellation, no part of the fee will be returned.

7. Any change of address must be promptly communicated to the Issuing Authority appointed by Government in this behalf and the license returned in order that the necessary amendments may be made thereon.

8. The location of the station may be altered temporarily at the discretion of the licensee, but if it is intended that the station shall leave the original location, for a period exceeding one month, the

licensee must inform the Issuing Authority appointed by Government in this behalf and return this license for endorsement.

9. If it is desired to continue to maintain the station after the date of expiration, this license must be renewed *within fourteen days.*

10. The licensee shall not assign, underlet or otherwise dispose of this license to any other person or body.

11. The licensee shall at all times indemnify the officer appointed by the Government of His Highness the Maharaja of Mysore in this behalf against all actions, claims and demands which may be brought or made by any corporation, company or person in respect of any injury arising from any act licensed or permitted in this license.

12. Notwithstanding anything contained in clause 4, the licensee or any other person either on behalf or by permission of the licensee or with the cognizance of the licensee shall not reproduce or publish in the press or disseminate by other similar means, messages sent for general reception by any station and received by means of the stations.

FORM V.

License to establish, maintain and work Wireless Telegraphy in the Mysore State.

NON-COMMERCIAL FIXED STATIONS.

Registered No. .....

Act for Regulation of Wireless Telegraphy in Mysore, (Act IV of 1937).

Mr. .....

(Name in full)

.....

(Address in full)

is hereby authorised (subject in all respects to the conditions set forth below and to the specifications found in the appended schedule to establish, maintain and work a Wireless Station at..... for the purpose of transmitting and receiving for research, experiment or instruction, for a period ending on the last day of the month of .....193 .

The payment of the license fee of Rs. 10 is hereby acknowledged.

Register No. of Expired license.....

dated.....day of.....193 .

Issued on behalf of the Government of His Highness the Maharaja of Mysore.

Director of Industries and Commerce in Mysore, Bangalore.

Conditions of the License.

1. The licensee is hereby permitted:—

(*a*) To establish, maintain and work apparatus for wireless telegraphs (hereinafter called the licensed apparatus) at the place specified in the Schedule.

(*b*) To transmit and receive such messages by means of the licensed apparatus as are specified in the Schedule provided that,

(i) the licensed apparatus shall not be used for transmitting indecent or obscene communications or false or misleading calls or signals;

(ii) the transmission and reception of such messages shall be subject to such conditions and regulations as may be prescribed by the Government from time to time;

(iii) the licensed apparatus shall only be used for the transmission or reception of messages in connection with instruction or experiment in wireless telegraphs or for the reception of the messages sent for general reception;

(iv) the licensed apparatus shall not be employed for the transmission of news, advertisements or messages sent for general reception or, for any form of broadcast matter or for the transmission of general calls.

(*c*) No money or other valuable consideration shall be received by the licensee or by any other person with the authority or by permission of the licensee or with the cognizance of the licensee, for, or in respect of, the use of the licensed apparatus, or, for, or in respect of, the transmission or reception of messages, by means of the licensed apparatus.

2. (i) The licensed apparatus shall:—

(*a*) be of the character specified in the schedule and the waves emitted shall be as pure and as little damped as possible and the licensed apparatus employed for reception shall afford the greatest possible protection from disturbance during the reception of signals and the licensed apparatus employed for reception shall be used in such a manner as to cause no interference with other stations.

(*b*) be capable of using the wavelengths specified in the schedule and such other wavelengths as shall be authorised by the Government, in writing, from time to time and the licensed apparatus employed for transmission shall invariably be tuned accurately to the authorised wavelengths;

(*c*) be so constructed that, when employed to radiate waves, these shall only be propogated by valves or other apparatus generating pure continuous waves;

(*d*) be kept in a clean and sanitary condition;

(*e*) be so arranged that all lights emanating therefrom shall be screened in such a manner as may be necessary to ensure the reasonable comfort and health of the certified operators and others employed in working the licensed apparatus;

(*f*) be worked so as not to interfere with the working of the other fixed stations.

(ii) Nothing contained herein shall be deemed to relieve the licensee of any responsibility for any infringement of patent rights which may be incurred by the use of the licensed apparatus.

3. Except with the consent in writing of the Director of Industries and Commerce (hereinafter called the Director) the licensed apparatus shall not be used for any purpose whatsoever or for the transmission or reception of messages other than the purpose or messages authorised by this license or for communicating with any stations other than those specified in the Schedule.

4. The Licensee shall:—

(*a*) Observe the provisions of the Radio Telegraph Convention and the International Telegraph Convention and the International Telegraph Regulations so far as the said Conventions and Regulations are capable of being applied to wireless telegraphs.

(*b*) Comply with such directions and regulations as may be given or made by the Director from time to time.

(*c*) Provide for the working of the station such certified operators as are required by the Rules in force in British India in working similar stations.

(*d*) Provide against the disturbance of the receiving apparatus of any fixed stations by electro-magnetic waves of any frequency or by conduction currents emitted from the licensed apparatus and against interference with power telegraph, telephone lines or cables in which high potential currents might be induced by means of the licensed apparatus. For the purpose of this provision the term disturbance is defined as the production of appreciable electrical effects in a syntonised receiver other than the receiver of the licensed apparatus adjusted as a whole to a wave length different from that of the transmitter of the licensed apparatus.

(*e*) Keep a record at the station of every transmission showing the date and time (Indian Standard Time) of such transmission and the system and wave length employed.

(*f*) Keep at the station this license or a certified copy of this license and also such documents as are specified in the Schedule.

(*g*) Indemnify the Government against all actions, claims and demands which may be brought or made by any person body corporate or company in respect of any injury arising from any act licensed or permitted by this license.

(*h*) Pay to the Director during the continuance of the license hereby granted a license fee of rupees ten per annum in respect of each station at which the licensed apparatus is installed. The said fee shall be payable before the issue of the license and within fourteen days of the expiry of the license in case a renewal is desired.

(*i*) Ensure that if the station is one in which the licensed apparatus is not permitted to be used with an antenna the station will not radiate waves and that the effects of conducted waves or earth currents of any frequency or nature emitted by the licensed apparatus shall not be appreciable on any power telegraph or telephone system. Provided however that spark systems of transmission may be used in non-commercial stations for experimental or instructional purposes if the other conditions of this sub-clause are observed.

5. The licensee shall provide that, when employed to radiate waves, the call sign of the transmitting station and that of the receiving

station, if any, shall be signalled or spoken in accordance with the following procedure :—

(*a*) When calling up another station the call sign of that station shall be signalled three times followed by the word from or the procedure signal D E and the call sign of the station which shall be signalled three times.

(*b*) When answering a call-up the call sign of the station to be answered shall be signalled three times followed by the word from or the procedure signal D E and the call sign of the station which shall be signalled once.

(*c*) When communication is established the call sign of the receiving station and that of the transmitting station separated by the word from or the procedure signal D E shall be signalled once only at the commencement and conclusion of every transmission.

6. (i) Except with the consent in writing of the Director or as specified herein the licensee shall not :—

(*a*) Divulge or allowed to be divulged to any person other than properly authorised officials of the Government or under orders of a competent legal tribunal or make any use of any message whatsoever received by means of the station other than a message sent for general reception whether such messages are transmitted by service signalling or by any system of wireless telegraphs established and maintained by or for the purposes of the Director or any department of the Government or by any licensee of the Government other than the licensee or otherwise.

(*b*) Permit the use of the licensed apparatus to interfere with service signalling.

(ii) Not withstanding anything contained in sub-clause (i) (a) of this clause the licensee or any other person either on behalf of or by permission of the licensee or with the cognisance of the licensee shall not reproduce or publish in the press or disseminate by other similar means messages sent for general reception by any station and received by means of the station.

7. When employed to radiate waves such certified operators as are required by the rules shall be in constant attendance at the licensed apparatus and a certified operator shall listen in on suitably adjusted receiving apparatus for three minutes at intervals not exceeding 15 minutes in order that he may perceive if the licensed apparatus is causing interference to authorised wireless communication.

8. An aerial crossing above or which is liable to fall on or to be blown on to any power telegraph or telephone line must be guarded to the satisfaction of the owner or the owners of the line concerned so as to prevent any damage being done in the event of a break occurring in the aerial.

9. The Director or any agent authorised in that behalf in writing by him may at all reasonable times enter the station either solely or jointly with any other person or persons for the purpose of inspecting and may inspect, examine or test any apparatus fixed or being in the station and the method of working and uses of such apparatus. At the request of any such authorised officer this license shall be produced by the licensee or the person for the time being in charge of and authorised to work the station.

10. (i) If and whenever an emergency shall have arisen in which it is expedient that the Government shall have control over the transmission of messages by the licensed apparatus it shall be lawful for the Director or any agent authorised in writing in that behalf bv him to cause the station or any part thereof to be taken possession of in the name and on behalf of the Government and to be used for the service of Government and subject thereto for such services as the Director may require and in that event the Director or his authorised agent may enter the station and take possession of and use the same as aforesaid.

(ii) The Director or his Authorised Agent may—

(*a*) instead of taking possession of the station as aforesaid direct and authorise such persons, as he may think fit, to assume the control of the transmission and reception of messages at the station either wholly or partly and in such manner as he may direct and such persons may accordingly enter the station and assume such control;

(*b*) direct that all or any class or classes of messages tendered for transmission or received at the station shall be handed over to an officer authorised by him;

(*c*) stop or delay the transmission, reception or delivery of any messages tendered for transmission or received at the station;

(*d*) require the licensee to obey all such directions with reference to the transmission or reception of messages at the station as the Director or his agent or any other person authorised by the Director may prescribe and the licensee shall obey and conform to all such directions.

(iii) The licensee shall be entitled to reasonable compensation to be fixed by a sole arbitrator nominated by the Government whose decision shall be final for any damage to the licensed apparatus arising in consequence of the exercise of the power conferred by this clause.

(iv) In the event of the licensee refusing to comply with the provisions of sub-clauses (i) and (ii) of this clause the Director may immediately thereupon cancel the license without the licensee being entitled to any compensation and without prejudice to any steps, the Government may think fit to take, to obtain possession of such licensed apparatus or to claim damages.

11. The Director may by notice in writing but without assigning any reason revoke and determine these presents at any time.

N.B.—See the following conditions carefully.

Conditions.

1. The licensee shall not permit the station to be used for any purpose other than that specified in the license.

2. The number of programmes received at one time by the station shall not exceed that specified in the license.

3. The station shall not be used in such a manner as to cause intereference with the working of other stations. In particular reaction must not be used to such an extent as to energise any neighbouring aerial.

4. An aerial which crosses over or is liable to fall or to be blown upon any telegraph or telephone line or overhead power wire (including electric lighting) must be guarded to the reasonable satisfaction of the owner of the power line or lines concerned so as to prevent any damage being done in the event of a break accruing.

5. The station shall be open to inspection at all reasonable times by any officer duly authorised by the Director of Industries and Commerce. At the request of such authorised officer this license shall be produced for inspection.

6. This license may be cancelled by the Director of Industries and Commerce at any time either by specific notice in writing sent by registered post to the licensee at the address shown hereon or by means of a notice published in the *Mysore Gazette* address to all holders of Wireless Receiving Licenses. In the event of cancellation no part of the fee will be refunded.

7. Any change of address of the licensee should be notified to the office of issue without delay and any change in the premises where the wireless apparatus or loud speakers are located will require the prior approval of the Director of Industries and Commerce. In making the application for such the license should be forwarded to the office of issue in order that it can be modified accordingly.

8. If it is desired to continue to maintain the station after the date of expiry this license must be renewed within 14 days. Heavy penalties are prescribed in the Act of 1937 to regulate Wireless Telegraphy in Mysore for the offences of establishing, maintaining or working a wireless station without a license and the possession of wireless apparatus without a license.

9. To obtain renewal, this license should be forwarded to the office of issue together with the chellan for having remitted to any of the Government Treasuries in the State. The fee for renewal will be

Rs. 5 less than that of the original license if payment is made on or before the date of expiry. For this purpose the date of money order or the date of remittance to the Treasury will be considered as the date of payment.

10. The licensee shall at all times indemnify the Government of His Highness the Maharaja of Mysore against all actions, claims and demands which may be brought or made by any Corporation, Company or person, in respect of any injury arising from any acts licensed or permitted in this license.

11. The licensee shall not divulge or allow to be divulged to any person (other than a duly authorised officer of the Government of His Highness the Maharaja of Mysore or a competent legal tribunal) or make any use whatever of any message received by means of the station other than time signals, musical or other programmes, and messages, transmitted for general reception.

12. Notwithstanding anything contained in condition 11 of this license, the licensee or any other person either on behalf or by permission of the licensee shall not reproduce, or publish in the press or disseminate by other similar means messages sent for general reception by any station and received by means of the station provided that the licensee may permit any person to listen to broadcast programmes received under the terms of this license.

13. This license does not authorise the licensee to do any acts which are (a) an infringement of any copyright which may exist in the matter received by the station or (b) contrary to any rule made by a competent authority regulating musical or other performance or noises in the area in which the Wireless Station is established.

Bangalore..... *Director of Industries and Commerce in Mysore.*

Dated.....

Conditions.

1. This license covers the establishment, maintenance and working of one Wireless Receiving Set at a time for demonstration purpose and must accompany and remain with the apparatus wherever it is being demonstrated. It permits the demonstration of any number of sets provided only one is demonstrated at a time.

2. This license authorises the establishment, maintenanace and working of the licensed apparatus by and at the residence of a prospective purchaser thereof and must remain with the prospective purchaser thereof for the said period as he has possession of the licensed apparatus. In no circumstances may the license be utilised to cover the working of Wireless apparatus by a prospective customer for a period exceeding fifteen days at a time.

3. Notwithstanding anything contained in condition 1 above no further apparatus may be demonstrated by the licensee under this license whilst the license is in possession of a prospective purchaser.

4. The licensee shall not permit the apparatus to be used for the purpose of gain or for any purpose other than for *Bona Fide* demonstration of the reception of broadcast matter.

5. The Wireless apparatus shall not be used in such a manner as to cause interference with the working of other stations. In particular, reaction must not be used to such an extent as to energise any neighbouring aerial.

6. No aerial may be erected which crosses over or is liable to fall or to be blown upon any telegraph or telephone line or overhead power wire including electric lighting unless it be guarded to the reasonable satisfaction of the owner of the powerline or lines concerned so as to prevent any damage being done in the event of a break occurring.

7. The licnesee shall not divulge or allow to be divulged to any person other than a duly authorised officer of the Government of His Highness the Maharaja of Mysore or a competent legal tribunal or make any use whatsoever of any message received by means of the licnesed station other than time signals, musical or other programmes and message transmitted for general reception.

8. Notwithstanding anything contained in condition 7 above the licensee or any other person either on behalf or by permission of the licensee or with the cognizance of the licensee shall not reproducel or publish in the press or reproduce any messages sent for genera,

617

reception by any station and received by means of the licensee's apparatus.

9. The Licensee shall indemnify the Government of His Highness the Maharaja of Mysore against all actions, claims and demands which may be brought or made by any person, body corporate or company in respect of any injury arising from any acts licnesed or permitted by the license.

10. This license only permits the establishment, maintenanace or working of wireless apparatus in Mysore State and does not permit or authorise such apparatus to be established, maintained or worked outside the State.

11. The licensee must maintain a record of the places at which demonstrations of the licensed apparatus are given and on demand by any officer duly authorised by the Director of Industries and Commerce this record must be produced for inspection and the whereabouts of this license and the licensed apparatus must be furnished.

12. No permission is hereby conveyed to do any act which is (a) an infringement of the copyright which may exist in the Broadcast matter received or (b) contrary to any rule made by a competent authority regulating musical or other performances or noise in the area in which the apparatus is established.

No. L. 2068—*Ml.* 70-38-16, *dated Bangalore, 7th September* 1938.

In exercise of the powers vested in them unde Sections 20 (2) and 106 (2) (a) of the Minor Municipalities Act 1933, the Government of His Highness the Maharaja of Mysore are pleased to issue the accompanying rules for regulating the interpellation of the President by the Municipal Councillors on matters connected with the Municipal Administration.

By Order,

P. H. KRISHNA RAO,
Secretary to Government,
Local Self-Government Department.

RULES.

Subject to the conditions and restrictions contained in the following rules, any Councillor may ask questions on any matters connected with the Municipal Administration.
